ZEE-CP-2026

Issued: September 2026

Company Overview

ZEE Co. is an Egyptian international trade company established in 2007 and headquartered in Cairo. With 19+ years of active trade experience, we serve as a trusted intermediary between global manufacturers and importers across Egypt, the Middle East, and Africa.

Our model is built on deep supplier relationships, rigorous verification protocols, and end-to-end coordination — from initial sourcing through to final delivery. We do not simply broker transactions; we manage the entire trade lifecycle on behalf of our clients.

Core Trade Corridors

Core Services

ZEE Co. provides a comprehensive suite of international trade services, structured around the ZEE Trade360™ framework — a five-stage process that covers every phase of the import lifecycle.

Global Sourcing & Procurement

Identifying and qualifying suppliers across Asia, Europe, and the Americas. We leverage 19+ years of supplier relationships to source products that meet your specifications, quality standards, and budget.

Supplier Verification & Factory Audits

Pre-shipment supplier assessment including factory audits, credential verification, sample evaluation, and compliance checks. We coordinate with third-party inspection bodies where required.

Freight Forwarding & Logistics

End-to-end freight coordination covering sea freight (FCL/LCL), air freight, and multimodal solutions. We work with established freight partners to ensure competitive rates and reliable transit times.

Customs Clearance Coordination

Coordination of customs clearance procedures at Egyptian ports, including documentation preparation, ACI (Advance Cargo Information) compliance, and CargoX digital documentation support.

Trade Documentation

Preparation and review of all required trade documents: commercial invoices, packing lists, certificates of origin, bills of lading, and import permits.

Egypt Market Entry Advisory

Strategic guidance for foreign manufacturers and exporters seeking to enter the Egyptian market — covering regulatory requirements, factory registration, and distribution channel development.

ZEE Trade360™ — Our Process

Every engagement follows our structured five-stage framework, ensuring full visibility and accountability at each phase of your trade transaction.

01 — SOURCE

Supplier identification, market research, and shortlisting based on your product specifications, target price, and quality requirements.

02 — VERIFY

Factory audits, credential checks, sample evaluation, and compliance verification before any commitment is made.

03 — PROCURE

Purchase order management, payment coordination, production monitoring, and pre-shipment inspection.

04 — MOVE & CLEAR

Freight booking, export documentation, shipping coordination, and customs clearance at the destination port.

05 — DELIVER

Last-mile logistics, delivery confirmation, post-shipment documentation, and transaction close-out.

Why ZEE Co.?

- 19+ years of active trade experience — deep market knowledge and established supplier networks
- End-to-end coordination — one point of contact from sourcing through to delivery
- Rigorous supplier verification — we audit before you commit
- ACI and CargoX compliant — fully aligned with Egyptian customs digitalisation requirements
- Bilingual team — Arabic and English, bridging communication across trade corridors
- Cairo-based operations — on-the-ground presence in Egypt's primary import hub
- Transparent process — regular status updates and full documentation at every stage
